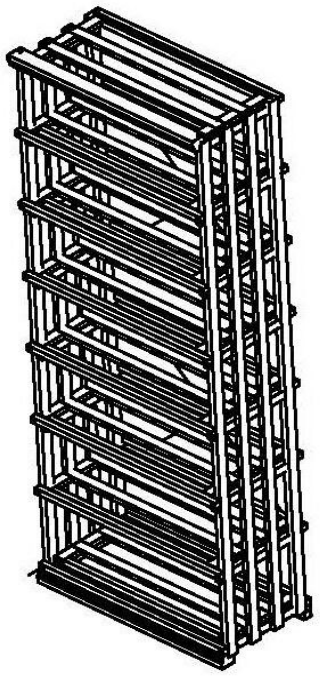
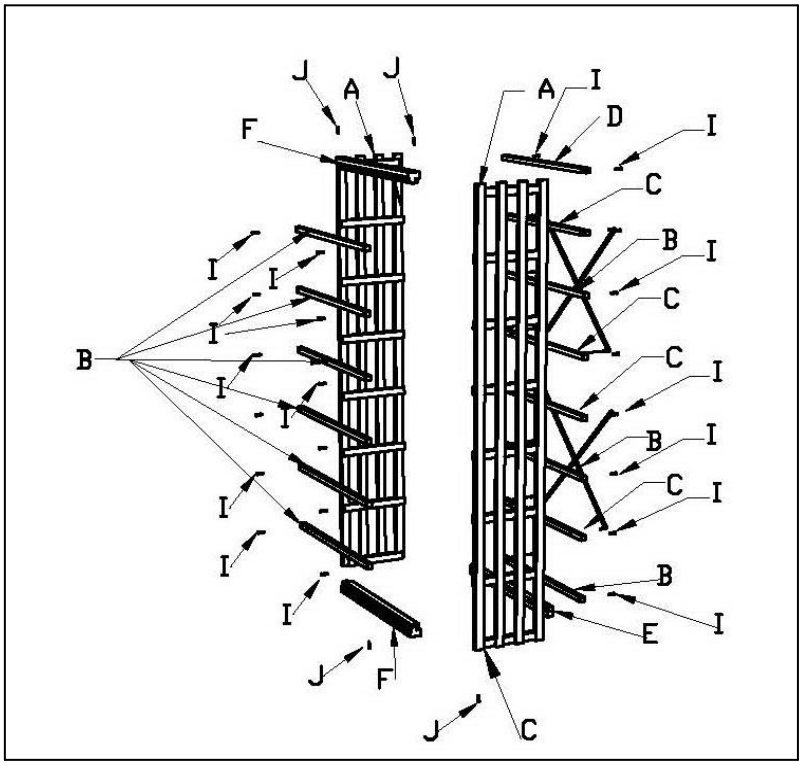
PARTS	DESCRIPTION	INCLUDED PIECES
A	SIDE BRACE	2
B	FRONT AND BACK BAR	8
C	BACK BAR	4
D	TOP BAR	1
E	BOTTOM BAR	1
F	MOULDING	2
G	TOP AND BOTTOM SHELVES	2
H	CENTER SHELVES	6
I	SCREWS (Ø 8x1$^{1/4"}$)	28
J	SCREWS (Ø 8x1$^{1/2"}$)	4
K	METAL BACK CROSS BAR	2

Tools needed: Philips screwdriver.

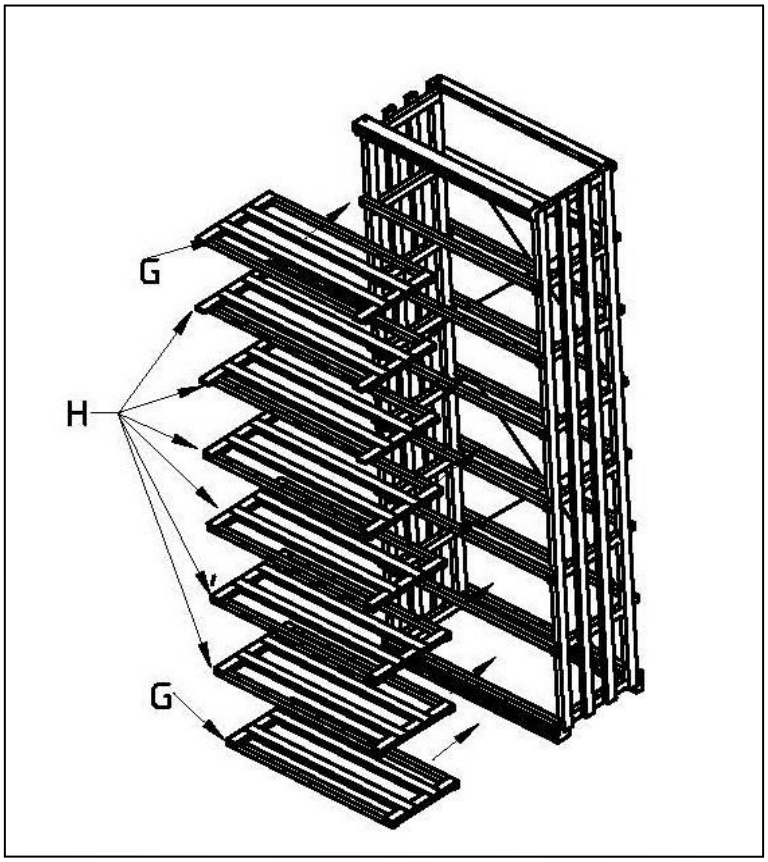




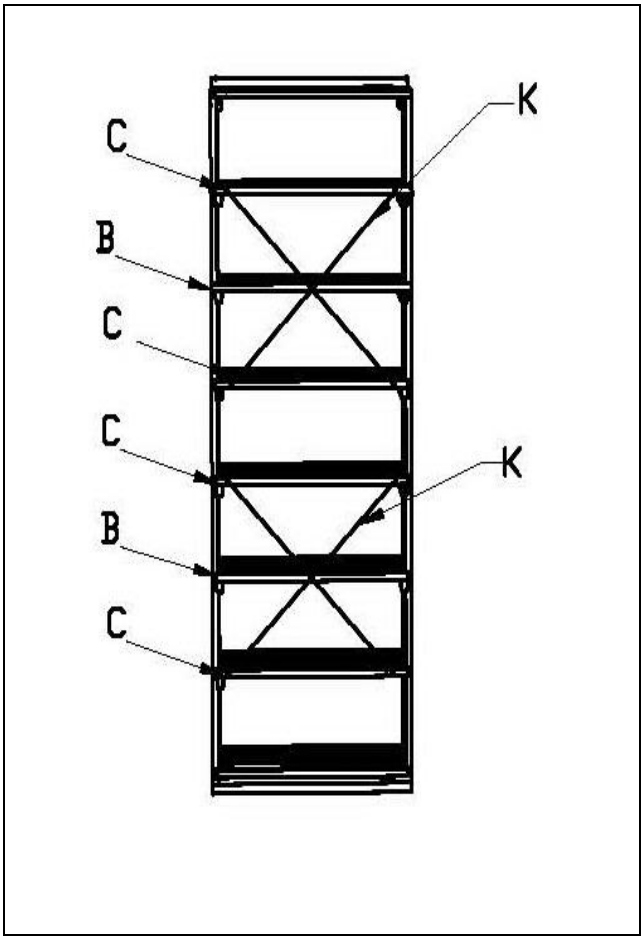
1. Starting with the SIDE BRACE upright (A), screw the FRONT & BACK BAR (B) into the pre-drilled holes on the side of the rack using provided screws (I). To ensure proper assemble, use/see the code number for Front & Back Bar as seen on the sketch.

2. With the Front &Back bars firmly in place, attach TOP BAR (D) and BOTTOM BAR (C) into the pilot holes on the back of the rack with screw (I) .

3 The same manner as step 2, attach MOULDING (F) into the pilot holes on the top front of the rack and the bottom front of the rack with screw (J).



4 Firstly, place TOP & BOTTOM SHELVES (G), then place or insert CENTER SHELVES (H).



5. Attach the BACK METAL SUPORT (K) with provided screws into the pilot holes (see the sketch)
