## THE WINE ENTHUSIAST FREE STANDING METAL RACK ASSEMBLY INSTRUCTIONS

### Optional:

In order to avoid the wine rack to tip over accidentally, we suggest to use the wall mount feature as shown below:

#### Step 1:

Assemble the 2 wall mounting hardware H on the top of the rack as shown.

#### Step 2:

Use a pencil to mark on the wall to accommodate the correct position of the 2 wall mounting holes.

#### Step 3:

Drill two holes on the wall with a electric drill on the marks you put in Step 2.

#### Step 4:

Insert a screw anchor I into each of the holes.

#### Step 5:

Then, the unit can be mounted on the wall by screw K, washer J and wall mounting hardware H as shown. Use a screwdriver to tighten the screw K.
